

**SECTION 1311. RECONSTRUCTION AND RESTORATION**

None of the following provisions are meant to preclude normal repairs and maintenance on any nonconforming building or structure that would prevent strengthening or correcting of any unsafe condition of the building or structure.

In the event any nonconforming building or structure is damaged by fire, wind, Act of God or public enemy, and the cost of rebuilding or restoration exceeds one-half (1/2) the floor area of the building or structure after rebuilding or restoration is complete, then such rebuilding or restoration shall only be permitted when first authorized by the Zoning Board of Appeals. In considering such authorization, the Zoning Board of Appeals shall consider the following standards:

- A. Whether such rebuilding or restoration will substantially extend the probable duration of the nonconforming use.
- B. Whether or not the land previously occupied by the nonconforming use can be advantageously used for a use permitted in the applicable Zoning District.

A building or structure on an existing lot of record in the district which is nonconforming by reason of height, lot area, width, yard requirements and/or parking and loading space provisions which is damaged by fire, wind, Act of God, or public enemy, may be rebuilt or restored as a matter of right, regardless of the value of the building or structure after rebuilding or restoration is complete.
