

SECTION 704. MINIMUM STANDARDS FOR RESIDENTIAL DWELLINGS

All single family dwellings shall comply with the following:

- A. All single family dwellings shall have a minimum of seven hundred twenty (720) square feet of floor area on the main floor.
- B. It shall maintain twenty four (24') feet minimum width across every front, side or rear elevation and complies in all respects with the Township building code, including minimum heights for habitable rooms. Where a dwelling is required by law to comply with any federal or state standards and where such standards or regulation for construction are different than those imposed by the township building code, the federal or state standard or regulations shall apply.
- C. It is firmly attached to a permanent foundation constructed on the site in accordance with the township building code and shall have a wall of the same perimeter dimensions of the dwelling and constructed of such materials and type as required in the applicable building code for single-family dwellings. Also, in the event that the dwelling is a mobile home, as defined herein, such dwelling shall be installed pursuant to the manufacturer's setup instructions and shall be secured to the premises by an anchoring system or device complying with the rules and regulations of the Michigan Mobile Home Commission.
- D. In the event that a dwelling is a mobile home as defined herein, each mobile home shall be installed with the wheels removed. Additionally, no dwelling will have any exposed towing mechanism, under carriage, or chassis.
- E. The dwelling is connected to the public sewer and water supply or to such private facilities approved by the local health department.
- F. The dwelling contains a storage area in a basement located under the dwelling, in an attic area, in closet areas, or in a separate structure of standard construction similar to or of better quality than the principal dwelling, which storage area shall be equal to ten (10%) percent of the square footage of the dwelling or one hundred (100) square feet, whichever shall be less.

- G. The dwelling contains no additions or rooms or other areas which are not constructed with similar quality workmanship as the original structure, including permanent attachment to the principal structure and construction of a foundation as required herein.

- H. The dwelling complies with all pertinent building and fire codes. In the case of a mobile home, all construction and all plumbing, electrical apparatus and insulation within and connected to said mobile home shall be of a type and quality conforming to the "Mobile Home Construction and Safety Standards" as promulgated by the United States Department of Housing and Urban Development (being 24 CFR, 3280) and as from time to time such standards may be amended. Additionally, all dwellings shall meet or exceed all applicable roof snow load and strength requirements.
