

August 9, 2021

Greetings,

I wanted to make you aware that Huron County's second Household Hazardous Waste Collection date has changed. Earlier this spring, we gave you the following information on the fall collection:

"The second collection is set for Wednesday, September 8 from 2 - 6 p.m. More information on this collection will come as we get closer to the date. These collections are designed to help homeowners properly discard hazardous waste they may not know what to do with. This is NOT designed for commercial or industrial waste."

The **NEW** collection date for the fall collection is now **Tuesday, September 7**. It will still be held from 2 – 6 p.m. for anyone interested in attending. Participants must contact the MSU Extension office before September 7 to find out the exact location of the collection and to leave a contact number just in case things change again before that date.

One of the most popular questions we get regarding HHW items is: Do we accept Latex Paint? The answer to that is no. Latex is a water-based paint and can be dried out safely.

MSU EXTENSION

Please feel free to share this information with anyone in your area that may ask. Questions can be directed to me at MSU Extension at 989.269.9949. Feel free to call or email me if you have any questions.

Thank you,

Shelly Sowles
