- Roads Millage (Township)
- Township General Operating Fund (Township)
- Medical Care Millage (County)
- EMS 911 Millage (County)
- Older Citizen Millage (County)
- Transit Millage (County)
- Veterans Millage (County)

The property tax rate in Michigan is referred to as a millage, and it's figured in mills. One mill is equal to 1/1,000 of a dollar. Or, more simply, for every \$1,000 in taxable value, a property owner will pay \$1 in property tax. Below is an example of tax allocation for the 2023 tax year millage rate of 43.6264 (Elkton-Pigeon-Bay Port School District) and a property's taxable value of \$100,400:

Non-homestead tax due =	\$4,380.09
Local School Tax -	\$2,657.45
State School Tax -	\$ 602.40
County Tax -	\$ 678.77
Lake Township Tax -	\$ 441.47

Lake Township receives \$441.47 of the total \$4,380.09 property tax. The remainder is allocated to the School, State and County. If the property was homestead, Lake Township would receive the same amount of \$441.47 and the Local School Tax would be reduced to \$850.25.

The below chart reflects the total tax dollars allocated to the **Township** and the total tax dollars allocated to the Schools and State and County governments based on a property's taxable value of \$100,400 for the 2023 tax year.
